

# TIGG Corporation Names Director of National Accounts

PITTSBURGH, PA- TIGG Corporation announced today that Jim Kearns has re-joined the company in a newly created position as the Director of National Accounts.

Mr. Kearns has over 30 years of experience in consultative project development and relationship management of customer accounts, along with sales and marketing strategy development & implementation. His experience includes a fundamental understanding of process engineering, remediation technology and water/air treatment systems.

His past experience includes project and client management and technical business development for multi discipline engineering firms with emphasis on environmental engineering and remediation.

“Our air and water purification business continues to grow along with our steel tanks manufacturing and sales. We will be leveraging our strong working relationship with current customers on a national accounts basis. Jim’s experience complements TIGG’s core business and growth strategies. We are pleased to welcome him back and look forward to his contributions to our long term growth initiatives,” commented Georgiana Riley, President of TIGG Corporation.

TIGG Corporation, headquartered in Oakdale, PA (near Pittsburgh), designs and fabricates systems that use activated carbon and other purification media to treat air, water, wastewater, and process streams. TIGG also manufactures steel tanks and pressure vessels as a standalone business line. TIGG Corporation is a certified Small Woman Owned Business and holds two GSA Contracts: GS-07F-0495W & GS-07F-0494W.
